Arrests Made in Connection with an Inland Empire Auto Theft Investigation

Riverside, CA - East NPC Detectives obtained information from San Bernardino State Parole that a subject may be involved in criminal activity in Riverside. That subject, David Guerrero of Highland CA (28), was tied to two 90s Honda Vehicles stolen last week from the Sycamore Highlands apartment community. Further investigation revealed another parolee, Joshua Navarro (21) also of Highland, worked in concert with Guerrero on the theft and VIN switching of Honda motor vehicles.

Metro and NPC East officers and detectives searched the adjacent residences of the men in Highland, CA and found four stolen vehicles, and an additional vehicle with stolen parts. The vehicles were stolen from Riverside, University of California Riverside, Victorville and Rancho Cucamonga. All five vehicles were seized. Additional stolen property was recovered tying the suspects to at least three additional stolen vehicles. Tina Orosco (34) of San Bernardino was also arrested during the search for possession of a single stolen vehicle. All suspects were booked into the Robert Presley Detention Center.
